

Swamped with Budgeting and Planning for 2021?

Save up to 80% of the time and
resources required with Clinical
Maestro Service Solutions

Don't get further behind!

Let the efficiency
of Clinical Maestro
reduce your
planning process
by over 80%!

Clinical Maestro's newest Service Solution expansion was specifically developed to address the disruption of delays and deferred trials caused by the complications of the pandemic. Our Service Solutions have been created in response to drug development sponsors who are short on time or resources and are looking to jump-start their 2021 budgeting process. Clinical Maestro's Service Solutions are available in either a full-service or an operational model and are designed to best support your needs, with access to experienced and trained personnel who manage the data input, software and project execution. Both services enable budget development with 95% accuracy.

The Full-service Model:

- For biopharmaceutical sponsors to use Clinical Maestro expertise to rapidly develop their budgets and alternative scenarios
- No software purchase required
- Use of Clinical Maestro platform by the Expert Team to develop a budget to support your requirements
- A complete report to benchmark budgets, alternative scenarios and variance comparisons
- 3-day rapid report turnaround

Operational Model:

- For sponsors with a growing pipeline that need a short-term assist
- Dedicated customer software platform for future use and internal operations
- Dedicated support from the Clinical Maestro team to support a baseline budget and alternative scenarios based on your initial inputs.
- On-line access to all benchmarks, scenarios and variance reporting
- 3-day rapid report turnaround to support your critical decision making
